## DATASHEET - PKZM0-20

Part no. Catalog No.

**EL-Nummer** 

(Norway)

No.

Motor-protective circuit-breaker, 9 kW, 16 - 20 A, Screw terminals

PKZM0-20 046988 Alternate Catalog XTPR020BC1NL

4355148

### **Delivery program**

| Product range   |                 |    | PKZM0 motor protective circuit-breakers up to 32 A  |
|---|-----------------|----|---|
| Basic function  |                 |    | Motor protection  |
|   |                 |    | IE3 🗸   |
| Notes   |                 |    | Also suitable for motors with efficiency class IE3.   |
| Connection technique  |                 |    | Screw terminals   |
| Contact sequence  |                 |    |   |
| Max. motor rating   |                 |    |   |
| AC-3  |                 |    |   |
| 220 V 230 V 240 V   | Р               | kW | 5.5   |
| 380 V 400 V 415 V   | Р               | kW | 9   |
| 440 V   | Р               | kW | 11  |
| 500 V   | Р               | kW | 12.5  |
| 660 V 690 V   | Р               | kW | 15  |
| Rated uninterrupted current   | l <sub>u</sub>  | А  | 20  |
| Setting range   |                 |    |   |
| Overload releases   | l <sub>r</sub>  | A  | 16 - 20   |
| short-circuit release   |                 |    |   |
| max.  | I <sub>rm</sub> | А  | 310   |
| Phase-failure sensitivity   |                 |    | IEC/EN 60947-4-1, VDE 0660 Part 102   |
| Explosion protection (according to ATEX 94/9/EC)  |                 |    | <ul> <li>PTB 10, ATEX 3013, Ex II(2) GD</li> <li>Observe manual MN03402003Z-DE/EN.</li> </ul> |
| Notes Overload trigger: tripping class 10 A<br>Can be snapped on to IEC/EN 60715 top-hat rail with 7.5 or 15 mm height. |                 |    |   |

**Technical data** 

| General             |    |  |
|---------------------|----|--|
| Standards           |    | IEC/EN 60947, VDE 0660,UL, CSA   |
| Climatic proofing   |    | Damp heat, constant, to IEC 60068-2-78<br>Damp heat, cyclic, to IEC 60068-2-30 |
| Ambient temperature |    |  |
| Storage             | °C | - 40 - 80  |
| Open                | °C | -25 - +55  |
| Enclosed            | °C | - 25 - 40  |

| Mounting position   |                  |                   | 90° 90°                                    |
|---|------------------|-------------------|--|
| Direction of incoming supply  |                  |                   | as required                                |
| Degree of protection  |                  |                   |  |
| Device  |                  |                   | IP20                                       |
| Terminations  |                  |                   | IPOO                                       |
| Protection against direct contact when actuated from front (EN 50274)     |                  |                   | Finger and back-of-hand proof              |
| Mechanical shock resistance half-sinusoidal shock 10 ms to IEC 60068-2-27 |                  | g                 | 25   |
| Altitude  |                  | m                 | Max. 2000                                  |
| Terminal capacity main cable  |                  |                   |  |
| Screw terminals   |                  |                   |  |
| Solid   |                  | mm <sup>2</sup>   | 1 x (1 - 6)                                |
|   |                  |                   | 2 x (1 - 6)                                |
| Flexible with ferrule to DIN 46228  |                  | mm <sup>2</sup>   | 1 x (1 - 6)<br>2 x (1 - 6)                 |
| Solid or stranded   |                  | AWG               | 18 - 10                                    |
| Stripping length  |                  | mm                | 10   |
| Specified tightening torque for terminal screws                           |                  |                   |  |
| Main cable  |                  | Nm                | 1.7  |
| Control circuit cables  |                  | Nm                | 1  |
| Main conducting paths   |                  |                   |  |
| Rated impulse withstand voltage   | U <sub>imp</sub> | V AC              | 6000                                       |
| Overvoltage category/pollution degree                                     |                  |                   | 11/3                                       |
| Rated operational voltage   | U <sub>e</sub>   | V AC              | 690  |
| Rated uninterrupted current = rated operational current                   | $I_u = I_e$      | А                 | 20   |
| Rated frequency   | f                | Hz                | 40 - 60                                    |
| Current heat loss (3 pole at operating temperature)                       |                  | W                 | 5.82                                       |
| Impedance per pole  |                  | mΩ                | 5  |
| Lifespan, mechanical  | Operations       | x 10 <sup>6</sup> | 0.1  |
| Lifespan, electrical (AC-3 at 400 V)                                      |                  |                   |  |
| Lifespan, electrical  | Operations       | x 10 <sup>6</sup> | 0.1  |
| Max. operating frequency  |                  | Ops/h             | 40   |
| Short-circuit rating  |                  |                   |  |
| DC  |                  |                   |  |
| Short-circuit rating  |                  | kA                | 40   |
| Notes   |                  |                   | up to 250 V                                |
| Motor switching capacity  |                  |                   |  |
| AC-3 (up to 690V)   |                  | A                 | 20   |
| DC-5 (up to 250V)   |                  | A                 | 20 (3 contacts in series)                  |
| Trip blocks   |                  |                   |  |
| Temperature compensation  |                  |                   |  |
| to IEC/EN 60947, VDE 0660   |                  | °C                | - 5 40                                     |
| Operating range   |                  | °C                | - 25 55                                    |
| Temperature compensation residual error for $T > 40\ ^\circ\text{C}$      |                  |                   | ≦ 0.25 %/K                                 |
| Setting range of overload releases  |                  | x I <sub>u</sub>  | 0.6 - 1                                    |
| short-circuit release   |                  |                   | Basic device, fixed: 15.5 x I <sub>u</sub> |

# Design verification as per IEC/EN 61439

| Technical data for design verification   |                   |    |  |
|--|-------------------|----|--|
| Rated operational current for specified heat dissipation   | I <sub>n</sub>    | А  | 20   |
| Heat dissipation per pole, current-dependent   | P <sub>vid</sub>  | W  | 1.94   |
| Equipment heat dissipation, current-dependent  | P <sub>vid</sub>  | W  | 5.82   |
| Static heat dissipation, non-current-dependent   | P <sub>vs</sub>   | W  | 0  |
| Heat dissipation capacity  | P <sub>diss</sub> | W  | 0  |
| Operating ambient temperature min.   |                   | °C | -25  |
| Operating ambient temperature max.   |                   | °C | 55   |
| IEC/EN 61439 design verification   |                   |    |  |
| 10.2 Strength of materials and parts   |                   |    |  |
| 10.2.2 Corrosion resistance  |                   |    | Meets the product standard's requirements.   |
| 10.2.3.1 Verification of thermal stability of enclosures   |                   |    | Meets the product standard's requirements.   |
| 10.2.3.2 Verification of resistance of insulating materials to normal heat   |                   |    | Meets the product standard's requirements.   |
| 10.2.3.3 Verification of resistance of insulating materials to abnormal heat and fire due to internal electric effects |                   |    | Meets the product standard's requirements.   |
| 10.2.4 Resistance to ultra-violet (UV) radiation   |                   |    | Meets the product standard's requirements.   |
| 10.2.5 Lifting   |                   |    | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.2.6 Mechanical impact   |                   |    | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.2.7 Inscriptions  |                   |    | Meets the product standard's requirements.   |
| 10.3 Degree of protection of ASSEMBLIES  |                   |    | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.4 Clearances and creepage distances   |                   |    | Meets the product standard's requirements.   |
| 10.5 Protection against electric shock   |                   |    | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.6 Incorporation of switching devices and components   |                   |    | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.7 Internal electrical circuits and connections  |                   |    | Is the panel builder's responsibility.   |
| 10.8 Connections for external conductors   |                   |    | Is the panel builder's responsibility.   |
| 10.9 Insulation properties   |                   |    |  |
| 10.9.2 Power-frequency electric strength   |                   |    | Is the panel builder's responsibility.   |
| 10.9.3 Impulse withstand voltage   |                   |    | Is the panel builder's responsibility.   |
| 10.9.4 Testing of enclosures made of insulating material   |                   |    | Is the panel builder's responsibility.   |
| 10.10 Temperature rise   |                   |    | The panel builder is responsible for the temperature rise calculation. Eaton will provide heat dissipation data for the devices. |
| 10.11 Short-circuit rating   |                   |    | Is the panel builder's responsibility. The specifications for the switchgear must b<br>observed.                                 |
| 10.12 Electromagnetic compatibility  |                   |    | Is the panel builder's responsibility. The specifications for the switchgear must bobserved.                                     |
|  |                   |    |  |

#### **Technical data ETIM 7.0**

Low-voltage industrial components (EG000017) / Motor protection circuit-breaker (EC000074)

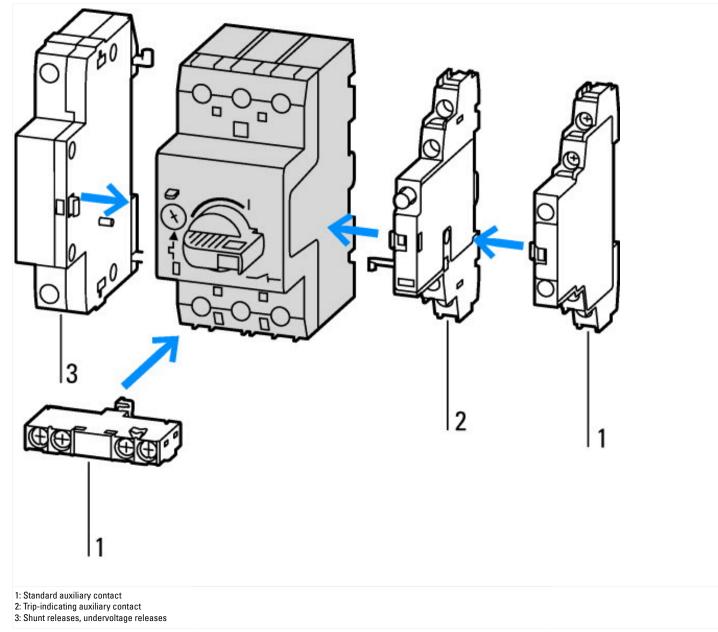

Electric engineering, automation, process control engineering / Low-voltage switch technology / Circuit breaker (LV < 1 kV) / Motor protection circuit-breaker (ecl@ss10.0.1-27-37-04-01 [AGZ529016])

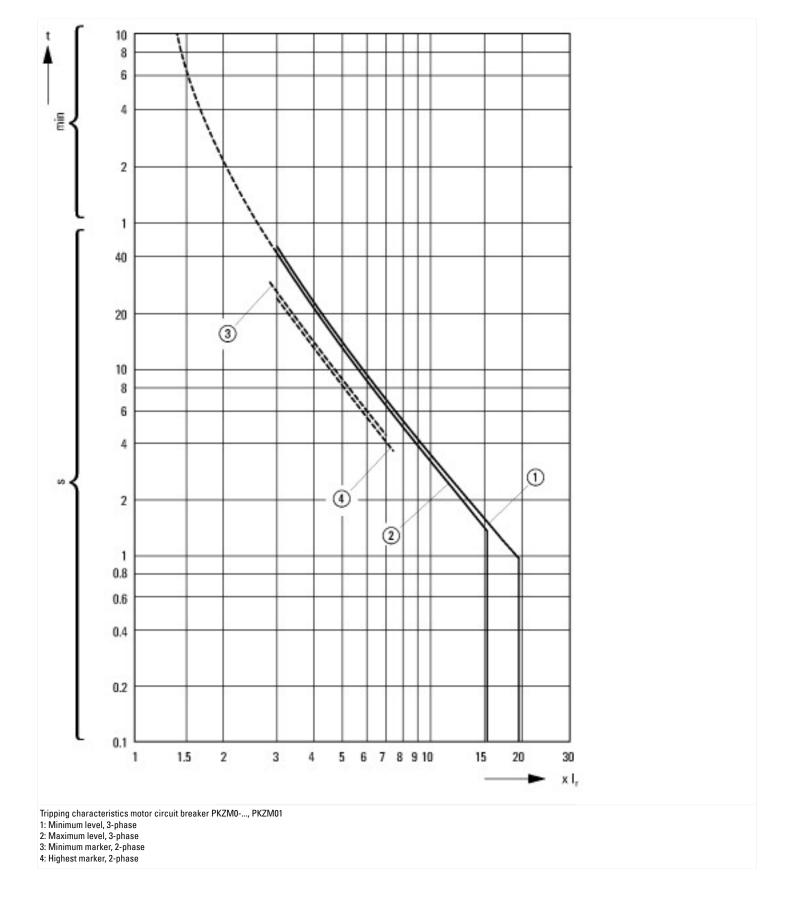

| Overload release current setting                       | А  | 20 - 20                                  |
|--|----|--|
| Adjustment range undelayed short-circuit release       | А  | 310 - 310                                |
| With thermal protection                                |    | Yes                                      |
| Phase failure sensitive                                |    | Yes                                      |
| Switch off technique                                   |    | Thermomagnetic                           |
| Rated operating voltage                                | V  | 690 - 690                                |
| Rated permanent current lu                             | А  | 20                                       |
| Rated operation power at AC-3, 230 V                   | kW | 5.5                                      |
| Rated operation power at AC-3, 400 V                   | kW | 9  |
| Type of electrical connection of main circuit          |    | Screw connection                         |
| Type of control element                                |    | Turn button                              |
| Device construction                                    |    | Built-in device fixed built-in technique |
| With integrated auxiliary switch                       |    | No                                       |
| With integrated under voltage release                  |    | No                                       |
| Number of poles  |    | 3  |
| Rated short-circuit breaking capacity lcu at 400 V, AC | kA | 50                                       |
| Degree of protection (IP)                              |    | IP20                                     |
| Height   | mm | 93                                       |
| Width  | mm | 45                                       |
| Depth  | mm | 76                                       |
|  |    |  |

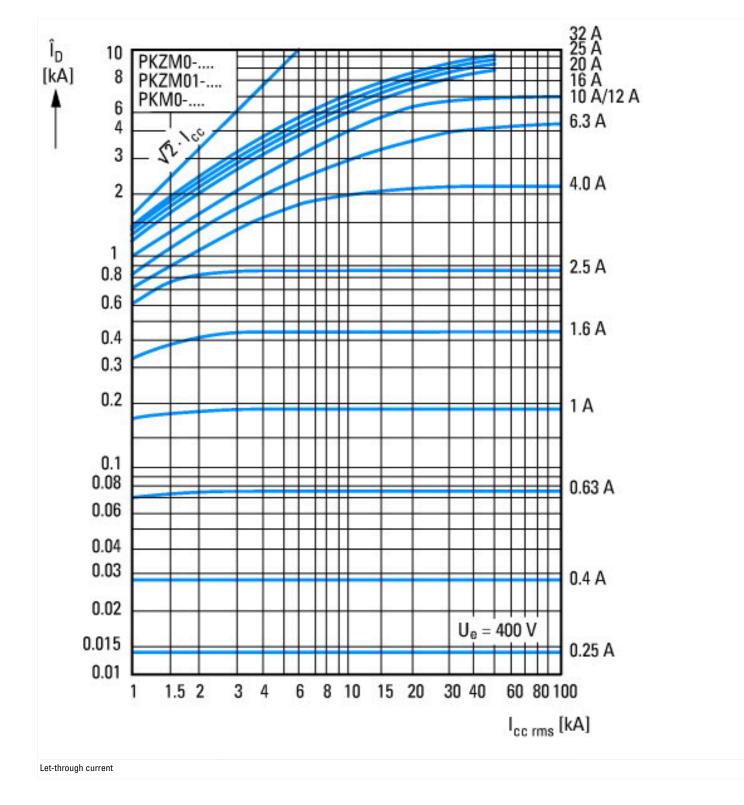

## **Approvals**

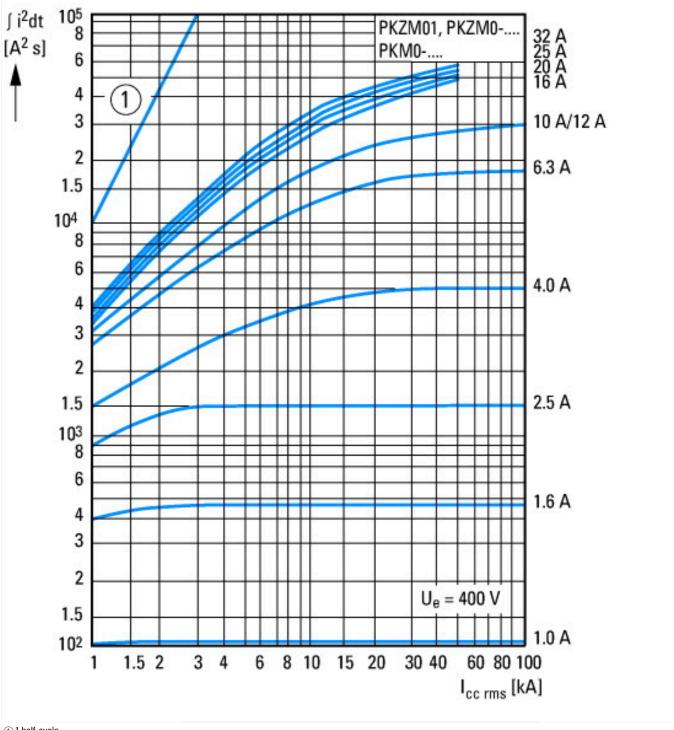

| Product Standards                    | IEC/EN 60947-4-1; UL 60947-4-1; CSA - C22.2 No. 60947-4-1-14; CE marking                 |
|--------------------------------------|--|
| UL File No.                          | E36332   |
| UL Category Control No.              | NLRV   |
| CSA File No.                         | 165628   |
| CSA Class No.                        | 3211-05  |
| North America Certification          | UL listed, CSA certified   |
| Specially designed for North America | No   |
| Suitable for                         | Branch circuit: Manual type E if used with terminal, or suitable for group installations |

## **Characteristics**

① 1 half-cycle Let-through energy

#### **Dimensions**
