

The CETI recessed ceiling light with its LED light sources produces a glare-free, warm white light (3,000 K). The recessed reflectors of the luminaire make a major contribution to this. The interchangeable colored reflector inserts in silver and gold offer additional design options. The CETI can be individually combined with a power supply unit and dimmed.

**Special features**

- Very low glare light
- Recessed reflectors
- Replaceable coloured reflector inserts
- Can be combined with a power supply unit as desired [excl.]
